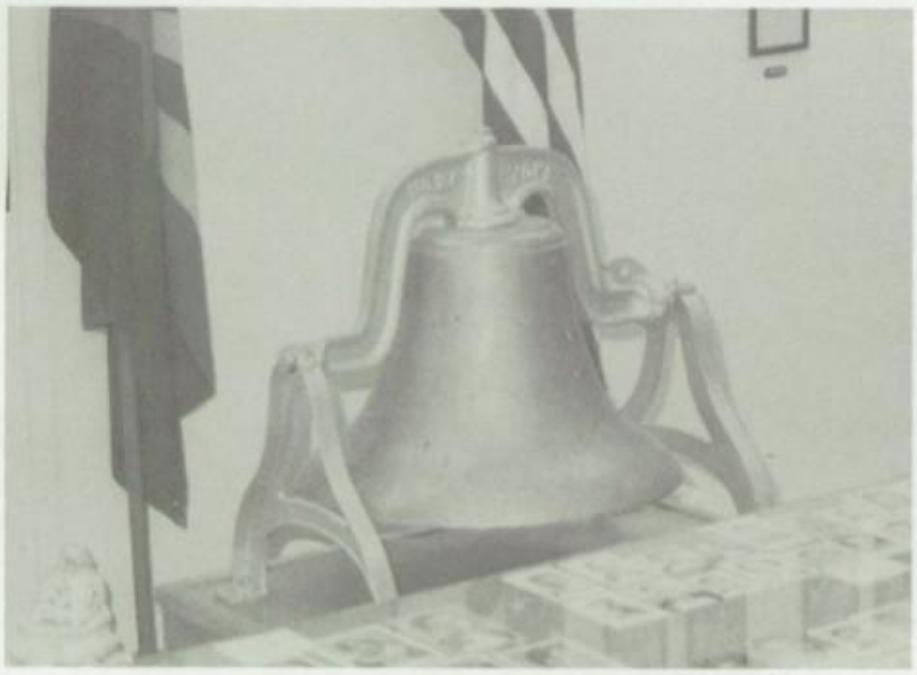
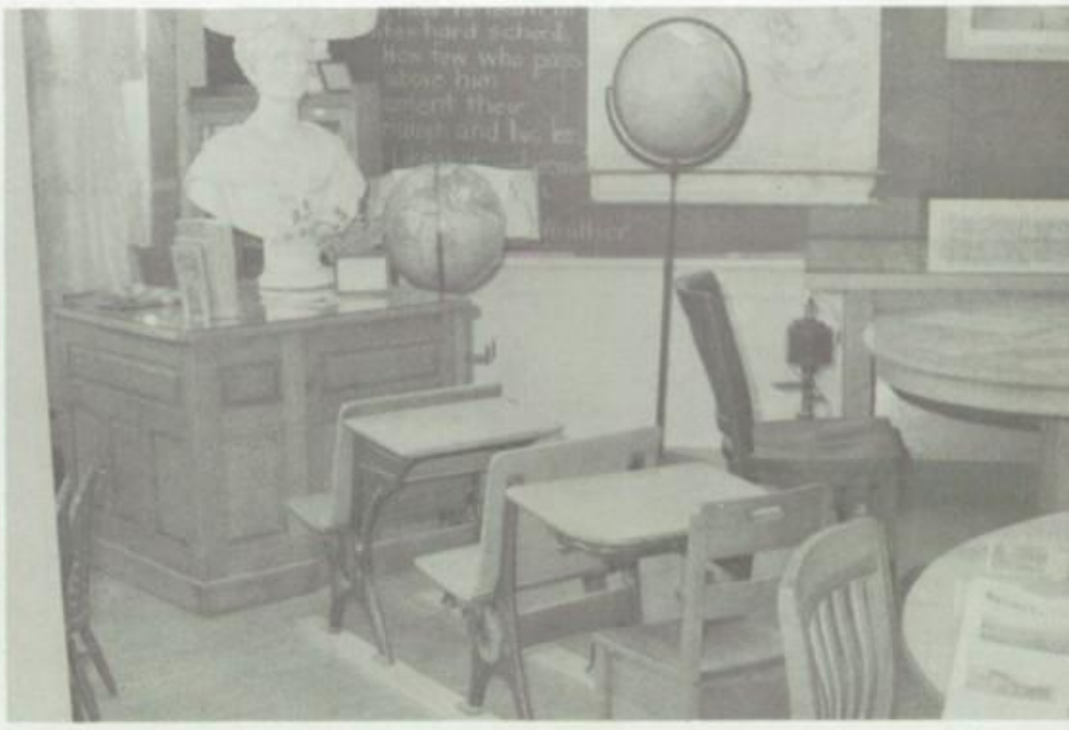
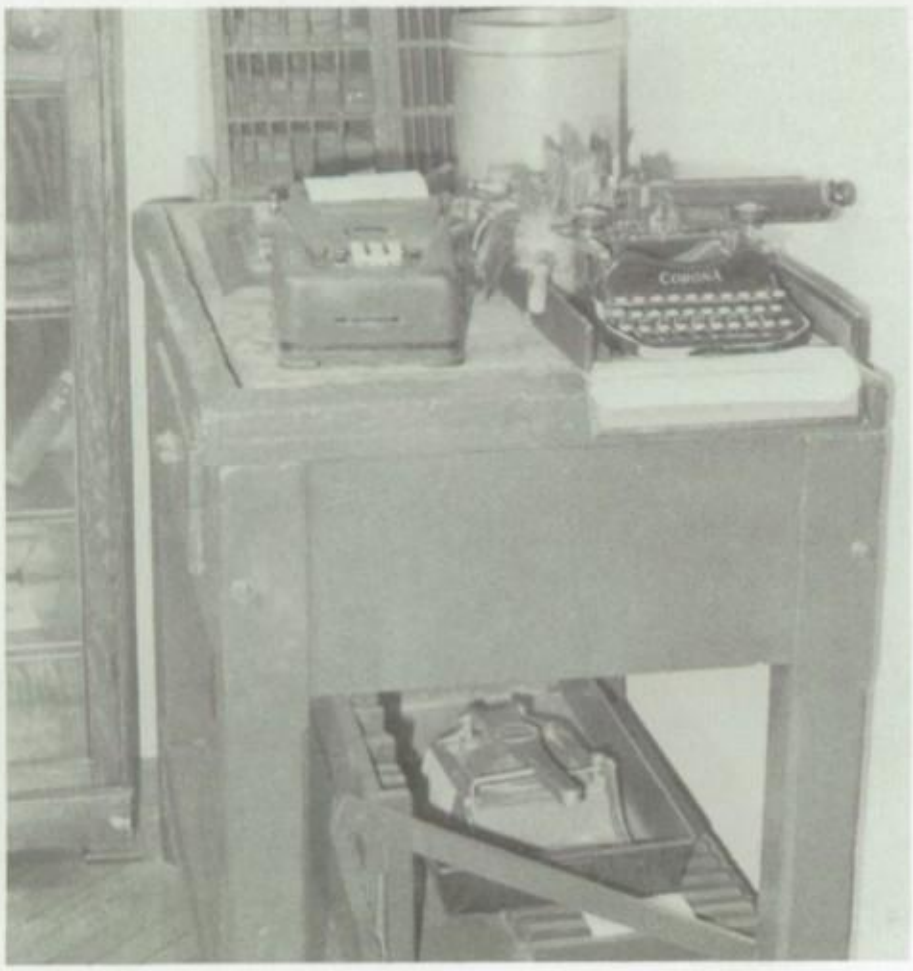
Douglas School District

It goes back a long ways . . .







The museum of Memorabilia of the Douglas Unified School District No. 27, which is located at Joe Carlson School, is filled with memorabilia from the Douglas School System. There are things that date from the early 20th century and textbooks that have publication dates from the 1870's.

The history of Douglas can be seen through the schools and the school museum has a facinating story to tell. It is open during the hours of the main office, and at special times by appointment. Mrs. Floy May King instigated the idea of establishing the museum which is the only such museum in the United States. Thanks to Mrs. King and other volunteers.

Meadowlark Lemon and Bucketeers played the California Coasters at Cochise College last fall. Mr. Paul Denham and Mr. Jesus Galindo were in the game and played with the California Coasters. If you missed the event, you missed a good game. The players were fast, especially at the boards! Some players dunked the ball so hard that the rim bent down, even if the ball was thrown backwards.
